BRAND EXPERIENCES

Premium Branding for Promotional Events, Launches & Activations

PRESENCE, NOT JUST PRINT

Every activation needs a physical presence — something that turns a stand, a launch or an outdoor event into a moment people actually notice. This is the display range we build that presence from: dependable exhibition essentials and bold outdoor pieces, produced to your brand specification and ready when the day arrives.

And when the brief calls for something the range doesn't cover — we design it from scratch. See page →

THE COLLECTION

Dependable exhibition and outdoor branding, produced to your specification — the pieces every activation can rely on.

INDOOR DISPLAY

Pull-Up Banners

ECYA-BE-001 · DISPLAY-4000

The dependable stand-by for any indoor stand or registration desk — quick to set up, easy to travel with, and available double-sided when you need branding from every angle.

INDOOR DISPLAY

Double-Sided Pull-Up Banners

ECYA-BE-002 · DISPLAY-4030

Two interlocking banners in one footprint — branding visible from both directions, ideal for walkways and island stands with no obvious 'back' to hide.

INDOOR DISPLAY

Double-Sided Straight Bannerwalls

ECYA-BE-003 · DISPLAY-3080

Two full-width prints back to back on one frame — a media wall that works a room from both sides at once, ideal for island stands and central walkways.

INDOOR / OUTDOOR

Curved Bannerwalls

ECYA-BE-004 · DISPLAY-3000

The straight bannerwall's more dynamic sibling — a gently curved profile that wraps branding around your space instead of just sitting in front of it.

INDOOR DISPLAY

PVC Table Cloths

ECYA-BE-005 · DISPLAY-5020

Durable, wipe-down table branding built for repeat use — the practical choice for exhibitions and busy registration tables.

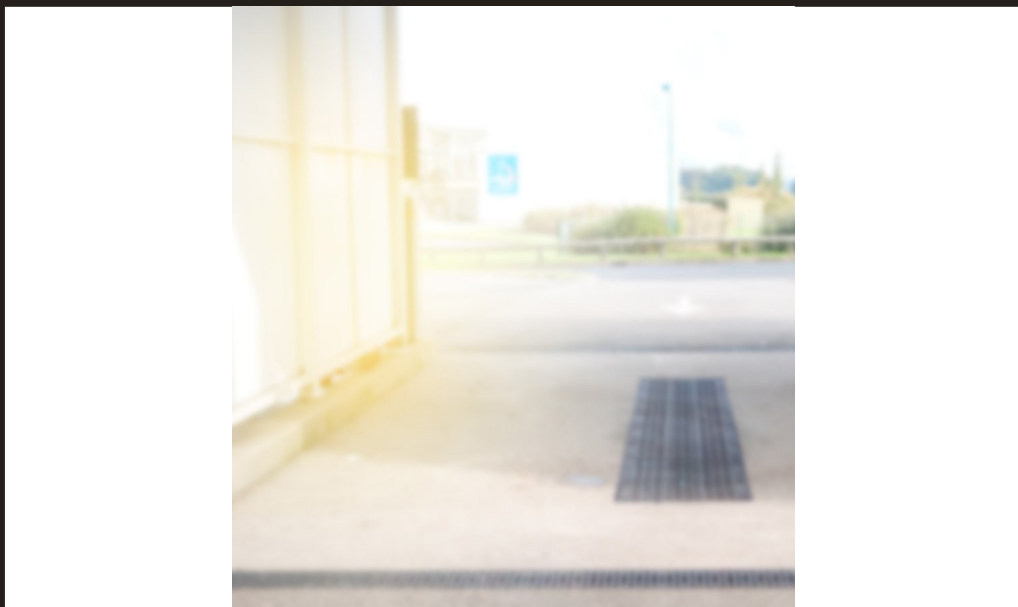

INDOOR DISPLAY

X-Banners

ECYA-BE-006 · DISPLAY-6000

A lighter, more compact alternative to the pull-up — ideal for smaller stands, in-store placements or anywhere floor space is tight.

INDOOR DISPLAY

Pop-Up Banners

ECYA-BE-007 · DISPLAY-8020

A curved, magnetic-panel display that builds a fuller backdrop than a single banner — quick to assemble, easy to reconfigure between events.

INDOOR DISPLAY

Straight Bannerwalls

ECYA-BE-008 · DISPLAY-3055

The classic media-wall backdrop for interviews, photo moments and step-and-repeat branding — sized from intimate briefings to full stage backdrops.

INDOOR DISPLAY

Fabric Table Cloths

ECYA-BE-009 · DISPLAY-5000

A softer, more tailored finish than PVC — a fitted, premium look for tables that need to feel considered, not just covered.

INDOOR DISPLAY

Desk Flags

ECYA-BE-010 · DISPLAY-1005

A small, personal branding touch for meeting tables, client desks and welcome gifts — understated, but never overlooked.

INDOOR / OUTDOOR

Hand Flags

ECYA-BE-011 · DISPLAY-1000

For marches, sporting events and crowd moments — a simple, energetic way to put your brand directly in people's hands.

OUTDOOR DISPLAY

Curved Bannerwalls with Wings

ECYA-BE-012 · DISPLAY-3025

A wraparound bannerwall with side wings that extend the branding around your stand — built to fill a space, not just mark its edge.

OUTDOOR DISPLAY

Arcfin Flying Banners

ECYA-BE-013 · DISPLAY-7022

A sweeping, curved silhouette that moves with the wind instead of fighting it — a softer, more graceful alternative to a straight flag pole.

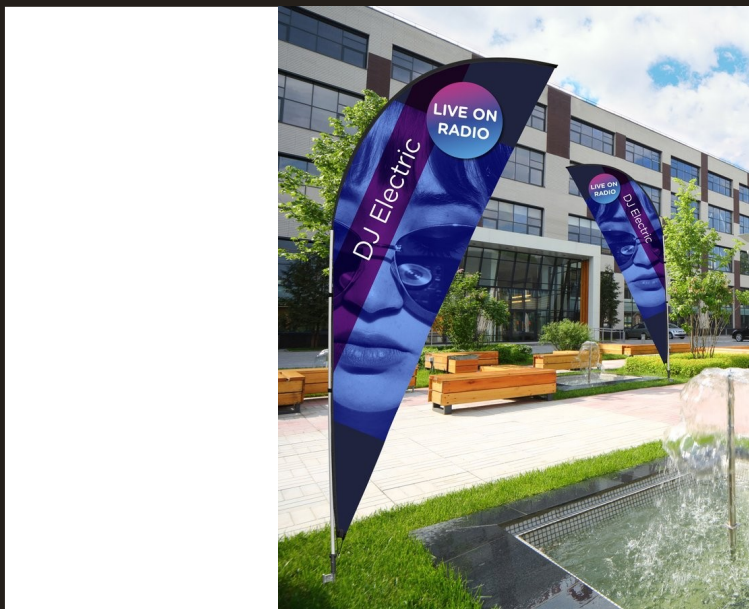

OUTDOOR DISPLAY

Sharkfin Flying Banners

ECYA-BE-014 · DISPLAY-7002

A sharply angled silhouette that catches wind and attention in equal measure — sold in pairs for a coordinated look at entrances and pathways.

OUTDOOR DISPLAY

Double-Sided Sharkfin Flying Banners

ECYA-BE-015 · DISPLAY-7012

The Sharkfin's angled silhouette, printed both sides — full visibility no matter which way the wind (or the crowd) is facing.

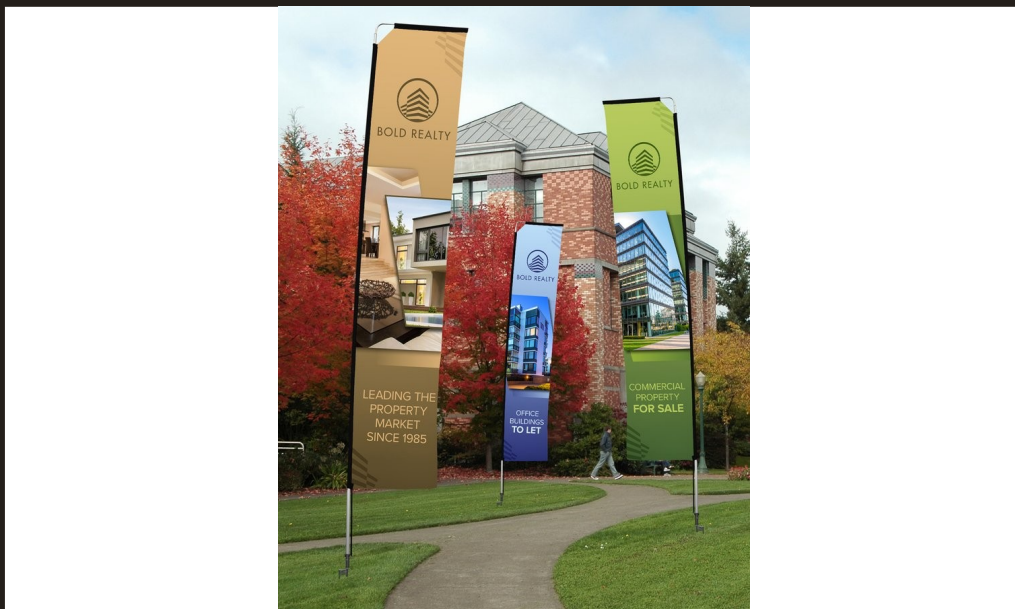

OUTDOOR DISPLAY

Telescopic Flying Banners

ECYA-BE-016 · DISPLAY-7042

Tall, vertical branding that stands above the crowd — literally. The go-to for marking an entrance or activation zone from a distance.

OUTDOOR DISPLAY

Double-Sided Telescopic Flying Banners

ECYA-BE-017 · DISPLAY-7052

The same commanding height, branded on both faces — for entrances and pathways where people approach from more than one direction.

OUTDOOR DISPLAY

A-Frame Banners

ECYA-BE-018 · DISPLAY-8000

A freestanding, double-sided sign that needs no wall or backdrop — sturdy sidewalk and forecourt branding for markets, sales days and pop-ups.

BEYOND THE RANGE

Sometimes the right activation isn't in a catalogue — it's a concept in your head. Whatever you can picture, from a suspended installation to a fully custom activation space, we'll design and produce it around your brief, your venue and your audience.

Tell us what you're picturing.

Let's Design the Experience.

Tell us about the activation — the space, the audience, and the moment you want people to remember.
